

CONNECT FOR THE *MOST HUMAN* HEALTHCARE ENGAGEMENT

Intelligent data-guided interactions to drive results

PATIENT | CONSUMER | EMPLOYEE | MARKET

Healthcare's most comprehensive experience management platform.

Take your health system beyond time-tested rounding programs that drive intentional connections but fall short when it comes to results and real human interaction. nVolve's AI-enabled platform supports your leaders with a single resource for predictive, proactive, automated workflows that foster engagement with patients, employees, processes, and environments. Embedded with data from your PX and EX solutions, nVolve will cue the right conversations with the right people at the right time to avoid or correct service issues, head off burnout, and build the most human healthcare relationships.

How nVolve works

BUILT WITH THE BEST OF NOBL

nVolve is made possible by incorporating technology and processes built and tested over ten years by Nobl Inc, which was acquired by NRC Health in July 2024. Nobl's workflows are integrated into nVolve and boosted by Huey, NRC Health's powerful, secure, and private AI engine, to take healthcare rounding to a whole new level.

LAYERED WITH YOUR DATA

As part of NRC Health's integrated healthcare experience platform, nVolve comes preloaded with PX and EX data as well as advanced insights from nGage to create a complete picture of your patients and employees that empowers the most human interactions possible.

A CONSISTENT APPROACH FOR RELIABLE RESULTS

Healthcare experiences can be complex. Standard workflows for frontline leaders, caregivers, and executives can help ensure a more reliable, high quality experience on every shift and at every location. nVolve hardwires excellence and "systemness" into your organization and gives you visibility into performance at every level.

Empowered for excellence

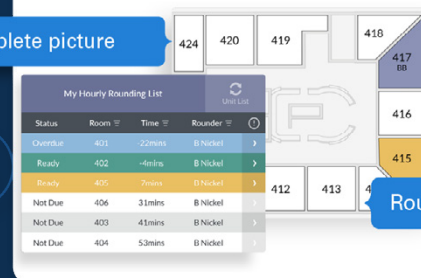

Tools and insights to take on today's challenges:

- Employee retention
- Burnout intervention
- Psychological safety
- Career development
- Process compliance
- Fall avoidance
- Reduced call lights
