

Efficiently and effectively build a stronger organization and a healthier community through exclusive access to knowledge, resources, and relationships.

The value of an educated board

The Governance Institute, a service of NRC Health

The value is in increased governance efficiency, effective decision-making, and helping our members work smarter, not harder.

The Governance Institute supports the efforts of healthcare boards across the nation to lead stronger organizations and build healthier communities. The Governance Institute partners with organizations to provide trusted, independent information, tools, and resources to their board members, executives, and physician leaders. These resources include:

Publications, resources, and governance tools

Networking events and conferences

Interactive e-learning courses

Benchmarked assessments

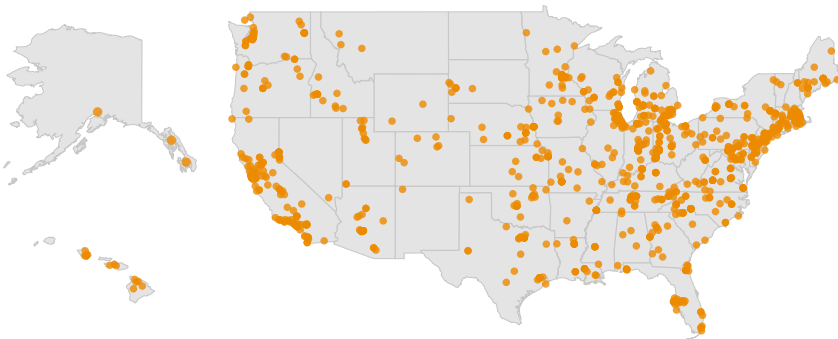

Research requests

By sharing best practices and education, benchmarking board performance, and prompting open dialogue, The Governance Institute filters what matters most to your organization to help your board innovate and accelerate your organization's future.

Join the nation's largest network focused specifically on healthcare governance and board improvement.

The Governance Institute supports more than 1100 hospital and health system boards across the nation that provide care to millions of Americans each day.

The Governance Institute: Top five takeaways

01

Proven experience

For over 30 years, The Governance Institute has been the industry leader in driving board development.

02

Comprehensive education

The Governance Institute provides a comprehensive approach to board education and development through multiple modes of learning.

03

Networking with the best

The Governance Institute provides shared intelligence from industry thought leaders and the nation's largest member network focused on healthcare governance and strategy.

04

A targeted approach

The Governance Institute pinpoints what is most important to an organization by co-creating an intentional development plan geared toward better governance and performance.

05

Raising the bar

With the nation's largest healthcare governance benchmark, you'll gain transparency into how your board compares to peers across the nation.
