

Where you have purpose

Welcome to a community
that inspires you to be
bolder and think bigger

*NRC Health empowers healthcare organizations
to better understand the people they serve, and in
turn design care experiences that inspire loyalty.*

Where you have purpose

At NRC Health, we promise to help our customers bring human understanding to healthcare, for their patients and communities. Our associates are at the heart of delivering that promise, so we promise that same human understanding to each other.

NRC Health offers employment opportunities regarding internships (both summer-term and longer duration) and full-time positions.

Think this might be the place for you? Join one of our internship programs and you will get experience in the departments of Revenue Growth, Marketing, or Information Technology. Learn to work as a team on multiple projects, network with the senior leadership team members and seek travel opportunities with full-time associates.

Our associates...

HAVE PURPOSE

Our associates do work that matters—for our partners, the community, and the healthcare industry.

- **Innovate** with us to move healthcare forward.
- **Give back** to the community with volunteer time off.

FEEL CONNECTED

Our associates say their favorite thing about their workday is each other.

- **Support one another**—no one says, “That’s not my job.”
- **Play hard** at beer:30 and team outings—we have a lot to celebrate.

ARE UNDERSTOOD

Our associates are each unique, and we want them to live their best lives—at work and home.

- **Let life happen** with 4+ weeks time off and a flexible work environment.
- **Live healthy** with a comprehensive healthcare plan and wellness programs.

THINK BOLDLY

Our associates have big ideas and are empowered to “think like an owner.”

- **Fit your role** and do what you love.
- **Grow and develop** along a career path designed by you.

WHY DO WE CALL OURSELVES “ASSOCIATES?”

Our CEO, Mike Hays, is a firm believer that anyone can have an impact from his or her first day on the job. We focus less on titles and more on the unique skills and perspectives each person brings to the organization.

We aren't just “employees”—we are proud associates.

NRC Health is headquartered in Lincoln, Nebraska, with four office locations and several remote opportunities.
