

Nasdaq Boardvantage® Go

Elevate your boardroom experience

Nasdaq Boardvantage Go is an iPad application, built on the latest technology, that enables board members and executives to be better prepared, engaged, and aligned before, during and after meetings.

New Features and Functionalities

Dashboard Insights Card

New Dashboard Insights card offers highlight reels and links to articles pertaining to the disciplines of ESG and Governance Best Practices.

Meetings

All meeting information is consolidated in one centralized location, enabling Directors to efficiently prepare and participate during board meetings.

Multiple Board Support

Board members can link one or more company accounts and switch between accounts seamlessly for ease of accessing all portal materials.

Enhanced Document Viewer

A simplified document viewer for accessing and reading materials. Customized page view preferences, document search, improved agenda and expanded thumbnail displays provide an improved navigation experience.

Annotation Tools

Intuitive and modern tools to take notes, share materials and collaborate with confidence. Annotate with ease, simplicity, and precision.

Notifications

Access timely materials with streamlined notifications and a new notification center. Directors will stay informed with alerts when their action is needed.

Email

Communicate with other board members confidently using a new, modern email tool with ease and efficiency.

Actions module

Consolidated location for board matters and tasks needing attention.

- **Digital Signatures** A modern approach to access and sign governance materials with ease and simplicity.
- **Surveys** New Survey functionality guides board members to respond to surveys all within one centralized task-oriented Action module within the app.
- **Approvals** Vote with confidence with new tools to submit a vote and add comments. Quick access to all related voting materials and new charts display board voting results.
