

# Explore

THE MOST HUMAN INTERACTION WITH YOUR DATA

## Personalized data through smart analysis and visualization

PATIENT | CONSUMER | EMPLOYEE | MARKET

Healthcare's most comprehensive experience management platform.

NRC Health gives healthcare organizations the technology and intelligence to create the most human healthcare experiences for patients, consumers, employees, and the markets they serve—to help eliminate friction, improve outcomes, and drive business results.

## Analyze data, create customized dashboards, and generate reports tailored to your organization's needs.

Say goodbye to hours of sifting through raw data. Explore empowers you to dive right into your patient experience data, calculate scores quickly, and create personal visualizations specific to your goals. No more jumping between reports, exporting views and combining to create cohesive dashboards, or wrangling endless spreadsheets. With Explore, you can analyze, visualize, and share data with ease.

### How Explore works

#### PERSONALIZED DASHBOARDS

Customizable options for charts, graphs, tables, and other visualizations. Explore lets you adjust everything from layout to content, to highlight what's important.

#### INTERACTIVE FILTERING

Dig deep into data with interactive filters. Whether you're focusing on demographics, time frames, or survey methods, filtering lets you simplify complex data sets to find the most relevant insights quickly.

#### COLLABORATION

Share dashboards and reports with team members to encourage collaboration and bring everyone into the data conversation, enhancing teamwork and helping your organization make collective, data-driven decisions.

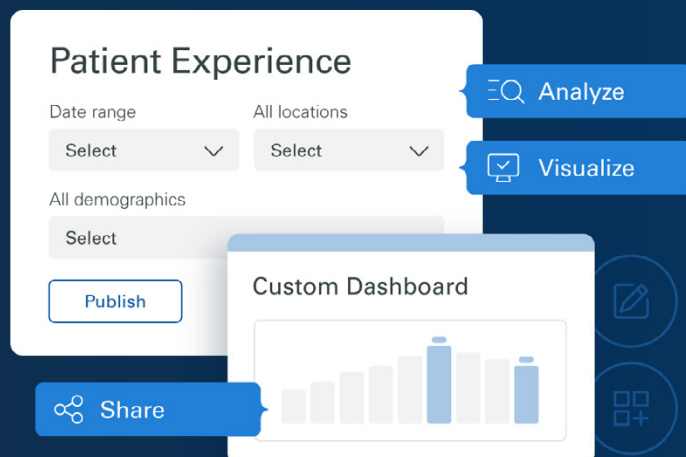

### Unlock new possibilities

Make the most of what you can learn from every person across the healthcare experience:

- Uncover insights
- Discover trends
- Customize visuals
- Drive improvement
- Support decision-making

Your data. Your story.  
Personalized for  
healthcare excellence.

Transform raw data into actionable information, supporting a more human approach to healthcare.
